## Going to the Beach

During the summer holiday, I went to the beach with my family. My younger sister and I built sandcastles near the shore and see whose sandcastle was the first to be destroyed by the waves.

Mum and dad did not play with us but were sunbathing instead. We all ate ice-cream and drank lemonade. Mmmmm...they were all so delicious!

Besides sandcastles, we also dug some tunnels. Some tunnels were big and deep, while others were very, very small and shallow. We then linked all the different tunnels together and soon we had a city! We were so excited and started building some walls all around it. When all was complete, it really looked like a walled city!
