

My Maternal Granny

My maternal granny's name is Jane Chow. She is very fat with short curly hair and does not wear glasses. She is very kind to us and I like her very much.

One time she went to see the dentist because she needed to make a set of dentures. She was very afraid of the dentist. The dentist wanted to put the moulding clay into her mouth and told her not to move. Yet she was very nervous, so she moved and moved and it took her eight times but still not getting it done. The dentist became very angry when she could not keep still because it was actually a very easy step to follow. At last he asked the nurse to pull her mouth down, open her mouth wide while pushing the clay onto her teeth. At last when it was done, she left and said, "Next time I hope I will be less nervous when I have my teeth checked."

Do you think you like her? If you do, I will introduce her to you. She is very funny and I am sure you will like her.
